

Our delivery plan

The **Start Well Board** ensures a shared system oversight.; mobilising resources, raising awareness, and fostering collaboration to drive transformative change for children and young people.

The governance framework is a flexible and live document that is regularly reviewed, with a formal annual update to stay relevant to evolving priorities.

Through the Start Well partnership, we will strengthen system leadership in health and care by:

- Encouraging mutual accountability, trust, and innovation.
- Applying systems thinking to understand healthcare interactions.
- Fostering continuous learning and adaptability.
- Integrating emotional intelligence into leadership.
- Promoting interdisciplinary collaboration.
- Using Decision Quality and Shining a Light methodologies to inform strategic choices.
